

Star Wars and the US Empire

Speaker: Bruce Gagnon

Coordinator of the Global Network against Weapons & Nuclear Power in Space

“ The role of the U.S. in the new world corporate order is going to be to export security. That means endless wars and weapons in space. The Pentagon will send our kids off to foreign lands to suppress opposition to corporate globalization. How will we ever end America’s addiction to war and violence as long as our communities are dependent on military spending for jobs? We must work to convert the military industrial complex to sustainable technologies like windpower, solar, and mass transit. ”

Sunday 2nd September
Oxford Town Hall
1.30pm – 3.30pm
Oxfordshire Peace Campaign
